

Alise Howlett, Assoc. AIA, CHFM, CFPE President, Codenity Inc.

Alise Howlett has over thirty-two years of experience working with the built environment as both a code compliance expert and intern architect. She has over nineteen years of focused experience working in hospitals and healthcare environments. Her unique experience with design, construction management, and historic buildings provides valuable insight into communicating compliance issues and collaborating on solutions for safer environments.

Alise is certified by the National Fire Protection Agency as a Certified Fire Plans Examiner, a distinction that verifies knowledge of NFPA 1, NFPA 101, and referenced life safety standards through exam and practicum. In addition, she is a Certified Healthcare Facility Manager as administered by the American Society for Healthcare Engineering (ASHE) and is an ASHE Construction Certificate holder. She has been a life safety surveyor, instructor, and standards advisor for the Healthcare Facilities Accreditation Program (HFAP), an accreditation agency with deeming authority from the Center for Medicare & Medicaid Services. Her mock survey and consultant services are under contract to many healthcare organizations and service groups nation-wide. Alise also provides other plan review services as an IBC certified plans examiner under the International Code Council, including management consulting services for municipal permitting authorities.

Ms. Howlett earned a Bachelor of Science degree in Architectural Studies from the University of Illinois in Champaign-Urbana and has served on local, state, and national American Institute of Architects (AIA) boards at the executive level. She is the current Chairman for the City of Loves Park Zoning Board of Appeals, the city of residence for herself and husband Steve.
